**ADVISORY ACTION**

***Response to Arguments***

1. The new limitations introduced in the amendment have not been previously searched and will require further search and consideration.
2. Applicant's arguments filed 4-21-2011 have been fully considered but they are not persuasive. With respect to argument directed to how Siwko discloses the limitation "an elapsed time from an effective time"; this limitation is basically measuring time or a timer, Siwko discloses in sections II and III show measuring times which is used with the probability factor. The rest of the arguments are moot because they are directed to the amended limitations which are not being entered.
